

Statement from the Board of Directors

It has come to our attention that the information posted on the NCQMA website in reference to the QMA meeting held on December 5, 2009 has been perceived differently from what it was intended. In no way should the presentation of this material be interpreted as biased. The goal of the NCQMA Board was to provide our members with all of the information available from both organizations in order for them to cast an informed vote in this transition and on the future of our club. Furthermore, the QMA officials gave their prior permission for the meeting to be videoed and published for NCQMA members who were unable to attend. Due to an error in publishing the information it was accessible to everyone rather than just our membership. We hope this clarifies the situation for everyone; however if you have any questions or concerns please contact a member of our Board of Directors.
